Board Goals

We as a committee looked at the most recent revision of the goals and believe we have some edits to make before we present the Student Development and the Educational Program goals for the year. We anticipate having them ready for the November meeting.

The District 67 Education Committee adjourned.

Tri District Education Committee

The District 67 Education Committee participated in a Tri-District Education Meeting.

The group discussed the scope and delivery of services for special needs. We discussed the current relationship with NSSSED, what each district was doing within their home district and what we are currently doing jointly. A proposal was made to further investigate the services needed, cost structure and the best way to deliver these services to students.

The next District 67 Education Committee will be held on November 8 where we plan to introduce our new community members.
